

LER PROPERTY MANAGEMENT

Garbage:

Each unit has 2 95-gallon carts; 1 for garbage and 1 for recycling as part of your rental agreement. Please separate your garbage from your recycling. When putting garbage out, please ensure the wheels are facing towards the house so the garbage companies machine can pick up the trash. Please do not park in front of your garbage on garbage day or you will not be picked up. Please refer to city website for garbage day. Your carts must still be placed on the curb by 6:30AM on trash day. If you need additional carts or a replacement, please call the city you are located in for assistance. If you have a dumpster service, please ensure you keep the dumpster area clean and avoid overloading the dumpster & putting items outside of the dumpster area. If you have items that do not fit in the dumpster, call for bulk pick-up. Do not park in front of the dumpster on garbage or your car may be towed at your expense.
